

August 2011 Newsletter

After a very full and hectic summer, it is time to present THE STUDIO's Fall season, with new classes, new teachers, new schedules, etc.

An exciting new concept in 'workouts' has taken the east and west coasts by storm, '**Ballet Barre Burn**'. We all know that Ballet is a wonderful body-toning and conditioning dance form, now anyone can participate in these low-impact, strenuous barre exercises that leave you feeling stronger, stretched and not 'beaten down'. **Ballet Barre Burn** is taught in our intimate studio setting with beautiful music – not at a cold, impersonal gym.

Another new offering is a class taught by Beth Berry called "**Playing with Purpose**". This is a Theater-based class for pre-school children together with an attending adult, a class that will combine elements of music and movement to stimulate imagination and creativity.

Using costumes and props, this class will encourage interaction between adult and child – a fun-filled learning experience

We are happy to welcome back Brian Jones who will be teaching his very popular Tap workshops. He will teach his standard Wednesday night Intermediate class and is offering a Beginner/Slow Intermediate class on Saturdays from 12 to 1:00. Because his workshops this past year were so well attended, it resulted in 8 different tap numbers in our June recital. Check our Website thestudioatmarinerssquare.com for schedule information.

And so we begin our 17th year of classes, anticipating seeing new and welcoming back returning students. From our five-year olds through our 70 year olds, we are privileged to teach the joy of dancing and acting. Come and share the joy!

Thank you for your continued support.
Sincerely,

Marilyn Smayda
